

♥ Welcome to Kindergarten

Dear Kindergarten Parents,

Welcome to Temecula Valley Charter School! The first day of Kindergarten is a great milestone for your child. I am thrilled to be teaching your son or daughter as they begin an exciting new school year. We welcome you and want you to know that we will do everything we can to make your child's Kindergarten year the best possible. Each year our kindergarten students enter school with a diverse range of experiences eagerly ready to absorb everything Kindergarten has to offer. You may be surprised at what an intensive learning program Kindergarten has become. Our goal is for every student to reach his or her developmental educational potential by building a strong academic foundation based on the California common core state standards. A student's academic success is based on those standards, a nurturing environment, and parental involvement. For children entering Kindergarten at TVCS, the year will be an action-packed year, which begins to open the world of reading and learning about the world around us. The children will learn to read, problem-solve, as well as investigate the world of science and history in a literacy rich environment. Communication is essential, Please reach out with any questions you may have. I'm looking forward to getting to know your kiddo and family. Together, we will build your child's confidence, encourage them to continue seeing learning as both enjoyable and useful, and provide a strong academic foundation. Please arrive early so the children have time to get adjusted and start their day. Gates open at 7:45 a.m. and we are in our seats ready to learn at 8:10 a.m.

Fun Facts about Mrs.Ross

My Name is Morgan Ross. I have a son who is 11 named Malachi and a daughter named Abigail who is 10. I also have a bonus daughter named Addison who is 11. I love all things purple. I can't live without coffee. I enjoy baking. It's one of my hobbies. I love spending my free time at the beach with my kiddos! I spend as much time as I can making family memories. I attended Ashford University and received a bachelor's in educational studies. I then furthered my education and attended Grand Canyon University. I have a master's in Early Childhood Education. I have been teaching for 5 years! My teaching philosophy is that a teacher is only as successful as her students. For students to succeed, you must identify and understand their learning styles, and adapt your teaching methods to meet their needs adequately. This creates an optimal learning environment that gives students a strong academic foundation to build upon!

Kindly,
Mrs. Ross
